THE NICARAGUAN SITUATION IN BRIEF

War and politics forgotten in Managua when Lindbergh arrives and receives great demonstration. Marines at Quaili reinforced by 120 men in machine gun detachment and are believed ready for final test with Sandino. Sandino boasts in letter to friend he will never be taken alive but will blow himself up with five tons of dynamite. Washington officials express confidence Sandino will be crushed soon.

By CARL D. GROAT
(United Press Staff Correspondent)

Washington, Jan. 6.—Reports to the government here today indicated that the Nicaraguan situation is "well in hand."

With marine reinforcements under orders to proceed to Nicaragua next week from three ports, officials indicated their belief that the troubles arising from conflicts between U. S. marines and General Sandino, Nicaraguan revolutionist, will be ended soon.

Some authorities here even foresee that Sandino's men, once they realize the strength of the force mobilized against them, will largely vanish over the Honduran border, thereby ending, for a time at least, the last of the revolutionary cativity.

The cabinet was called for this forenoon, but it appeared unlikely that the Nicaraguan question would come up for any extensive discussion.

The senate was in recess until of the administration policy were Monday, so attacks from opponents stilled in that quarter temporarily. The general indications were that congress is still disinclined to act for an investigation of the Nicaraguan situation. The general tendency is to hold that little can be done about withdrawal of marines for the present. The United States is under agreement to supervise fair elections in Nicaragua this year, and the elimination of the Sandino revolutionary activity is regarded by many as a necessary noncommittal to such supervision.

ENGAGEMENT MAY TAKE PLACE SOON

Managua, Nicaragua, Jan. 6.—Word of an engagement between U. S. marines concentrated at Quaili and the Sandino forces they have determined to wipe out was expected momentarily here today.

Reinforced by a machine gun company of 120 men, the marines were believed in a position to make a successful drive.

Lieut. Moses J. Gould, in charge of the marines, had sent out word on Tuesday that the attack was expected to be made within 48 hours and it was assumed it was held up until the machine gunners arrived.

No sign of hostilities came from the entrenchments of General Augustino Sandino at El Chipote, about 15 miles from Quaili over the mountains, and the ominous quiet in the region of operations presaged the lull before an encounter. No clashes occurred in the last two days.

The marines were kept in good contact with their base of supplies here through a new Fokker plane that provided them with rations, ammunition, machine guns and medicines.

Mexico City, Jan. 6.—Augustino Sandino, Nicaraguan rebel general, will blow himself up with five tons of dynamite rather than fall into the hands of his foes, he wrote in a letter to a friend made public here.

The letter was written Sept. 4 to a friend in Tegucigalpa and was given out here by Dr. Pedro Zepeda.

AMERICAN SHIP IN DISTRESS OFF CAPE HATTERAS

Washington, Jan. 6.—(U.P.)—Word was lacking at coast guard headquarters today of the fate of the American schooner Aylla in distress 60 miles northeast of Cape Hatteras.

The coast guard cutter Mascoutin was dispatched to the rescue late yesterday from Norfolk, Va., after the United Fruit liner Sixola radioed the schooner was leaking, with its pump partly out of order.

FLOYD HEWITT TO BE EXECUTED AFTER SUNDOWN

YOUTH BEAT AND KILLED WOMAN AND SON WITH BASEBALL BAT

STATE BOARD OF CLEMENCY REFUSES EXTENSION OF EXECUTIVE CLEMENCY

State Penitentiary, Columbus, O., Jan. 6.—(U.P.)—Floyd Hewitt, 17-year-old boy who murdered a woman and her small son at Conneaut, Ohio, last year, saw what will probably be his last day of life dawn today.

The youth who beat Mrs. Fred Brown and her son, Fred, Jr., to death with a poker and a baseball bat, will be executed some time after sundown this evening.

Warden P. E. Thomas intimated the boy would be strapped in the chair about 7 P. M., shortly after he has eaten a fried chicken dinner and other delicacies that compose a condemned man's last meal.

Hewitt's fate was determined yesterday when the state board of clemency refused to recommend the extension of executive clemency.

Governor Donahey, who was out of the city, instructed his office before his departure, that he would abide by the board's recommendations.

The doomed boy's only hope for life is that the governor, in response to appeals from jurists and clergymen, might alter his decision and grant a stay.

Later Governor Donahey told the United Press that he would not interfere.

"The case stands just as the board of clemency left it," the governor said.

URGES LASH IN PRISON AS CRIME PREVENTATIVE

St. Paul, Jan. 6.—(U.P.)—The lash in prison as a good preventative for crime was advocated by Irvin P. Jones, assistant superintendent of the state bureau of criminal apprehension, in an address before members of the St. Paul Professional Men's club.

"The average holdup man is a moral coward," Jones said. "He will stick a gun in your ribs when you are unarmed, but he has a great horror of the lash. A noted criminal who escaped from the Stony Mountain prison in Manitoba and was arrested in Minneapolis, told the policeman there he would plead guilty to any crime if he would not be sent back to Canada where the lash is used."

Jones advocated also the use of finger print systems by savings banks and life insurance companies, explaining that finger prints offer positive identification.

States marines will not take him alive, Sandino wrote:

"I will fight as long as my heart beats. Nicaragua shall not be the home of imperialists. I have five tons of dynamite in my arsenal which I will set off with my own hands that those who hear the explosion will know that Sandino died, but that he did not allow the hands of traitors and invaders to profane remains."

"Only God is all powerful and those true patriots who are left will judge."

GOVERNMENT HANDWRITING EXPERTS CALLED

SENATE COMMITTEE INVESTIGATING HEARST MEXICAN "DOCUMENTS"

TO GIVE OPINION ABOUT HANDWRITING OF VARIOUS WITNESSES TESTIFYING

By PAUL R. MALLON
(United Press Staff Correspondent)

Washington, Jan. 6.—Government handwriting experts were called today before the senate committee investigating the Hearst Mexican "documents" to give their opinion about the handwriting of various witnesses who have testified in connection with them.

Two men from the navy department and one from the treasury were asked to testify about the similarities and differences of script collected by the committee in its hearings.

Through this evidence the committee intended if possible to point definitely to the forger of the papers, which William Randolph Hearst published as Mexican state documents only to learn later from his handwriting experts that they were spurious.

Miguel Avila, Mexican-American secret agent, who says he procured the papers for Hearst by purchase from Mexican government employees, also was called.

Officials of the Radio Corporation, Western Union and Postal were asked to furnish copies of telegrams exchanged between Avila and John Page, Hearst newspaperman in Mexico City, who negotiated with Avila for the purchase of the documents.

Arthur Bliss Lane, head of the Mexican division of the state department, was called to deny the already discredited story that he was involved in one of Avila's transactions.

The committee hoped by its evidence to be able to report to the senate the name of at least one and perhaps two of the fabricators of the papers so that action could be taken against them.

This was expected to be the last session of the committee, which started to investigate particularly the authenticity of a Hearst document declaring the Mexican government ordered \$1,200,000 paid to four U. S. senators. This document, among others, has been branded a forgery.

Washington, Jan. 6.—Seven of the Hearst Mexican "documents" purported to be Mexican government code messages are spurious, Commander A. D. Struble, U. S. naval code expert, told the senate investigating committee today.

Struble said he and other naval experts spent 10 days studying the seven messages, some of which were supposed to have been exchanged between President Calles of Mexico and Arthur Elias, Mexican consul-general in New York.

"It is my belief they are not actual code messages but appear to be fakes," said Struble.

The expert said the "code" appeared to be "typewritten gibberish" struck off at random by someone.

HICKMAN NOW SHOWS TROUBLED, ANXIOUS MENTALITY

ENTERS SECOND PLEA OF "NOT GUILTY BY REASON OF INSANITY"

JAILOR COMMENTS ON HICKMAN'S ACTIONS IN HIS CELL

Los Angeles, Cal., Jan. 6.—(U.P.)—With his life apparently depending on the condition of his mind, William Edward Hickman, confessed double murderer, today paced his cell, pulled his hair, twitched his hands and gave outward indications of troubled mentality.

Hickman yesterday entered a second plea of "not guilty by reason of insanity" when arraigned before Superior Judge Carlos Hardy for the slaying of Ivy Thoms, druggist. Trial date was set for Feb. 1. He previously entered the same plea when arraigned for the murder of Marion Parker, 12. Trial date on that charge was set for Jan. 25.

Welby Hunt, 16, Hickman's alleged partner in the Thoms hold-up and murder Christmas Eve, 1926, was to be arraigned on the indictment today. A controversy as to legal jurisdiction over the youth prevented his officially pleading guilty yesterday.

In commenting on Hickman's actions in his cell, Frank Deward, "The Fox" jailor, said Hickman acted "for all the world like a man who was going to prove himself insane or die in the attempt."

SLACK PANTS OF HUNTING SUIT SAVED KING

KING ALBERT OF BELGIUM IN BOB-SLEIGH ACCIDENT

DESCENDING RUNWAY 40 MILES AN HOUR, WHEN SLED SKIDDED

London, Jan. 6.—(U.P.)—Because the pants of his old green hunting suit were slack, King Albert of the Belgians was saved from injury in a bob-sleigh accident in the Swiss Alps.

A St. Moritz dispatch to the Daily Mail today said the king was descending the St. Moritz sleigh run at 40 miles an hour as passenger on a bob-sled when it skidded turning Shamrock Corner.

Lord Northesk, the brakeman, was thrown and injured his back.

The king was unbalanced but Dudley Delavigne, another passenger, quickly pushed himself back in Northesk's vacant place and took a firm grip on the seat of the royal trousers.

He pulled Albert back into position and the king finished the run with no more damage than a scraped elbow.

"I hope Northesk was not hurt; that was the greatest thrill I have ever had," the king said. "It's greater than war or motor-cycling."

BIND, GAG HIM, CARRY HIM TO MINNEAPOLIS

LOOT GATHERED INCLUDED \$170 CASH, 5 CASES OF WHISKEY

POSTOFFICE BROKEN INTO, DIAL OF SAFE IS BROKEN OFF

Mora, Minn., Jan. 6.—(U.P.)—A band of yeggs terrorized this town early today, entered four places and captured the town marshal, whom they bound and gagged and carried to Minneapolis.

The loot from the places entered consisted of \$170 in cash, five cases of whiskey, a quantity of cigarettes and an old army revolver.

About 2 A. M. today Godfrey Andrist, the town marshal, was making the rounds, and near the Farmers' Co-operative Creamery, he noticed a parked car with several persons sitting in it. He approached the car, when, he says, three men got out, and at the point of guns, forced him into the car and bound and gagged him.

Leaving one man to watch the marshal, the other two entered the creamery, where they obtained approximately \$118. They then drove to the Mora drug store, where they got another \$50 in cash and five cases of whiskey. The next place entered was the postoffice, where the yeggs broke off the dial of the safe, but failed to enter the inner section.

HEAVY ICE JAM IN MISSISSIPPI NEAR ST. LOUIS

BROKE LATE YESTERDAY, AGAIN LOCKED, REFLOATING 30 VESSELS

KEY JAM, ACCORDING TO REPORTS, 45 MILES SOUTH AT RUSH TOWER

St. Louis, Mo., Jan. 6.—(U.P.)—A heavy ice jam in the Mississippi river which broke late yesterday, grounding 30 vessels below here, was again locked today, sending the river level to the 20 foot mark and refloating the grounded craft.

The key jam, according to reports to J. R. Parker, wharfmaster here, was at Rush Tower, 45 miles south, where the ice was packed to a depth of more than 15 feet. An island in mid-river was holding the flow.

In event the jam again breaks, further vessels face grounding. Parker said, as it would lead to a sudden drop in the back-water level here. No serious damage has been done, he said, although a force of men was held in readiness to man the vessels and avert foundering.

The jam first occurred during the recent cold wave, and blocked the river here with huge, jagged chunks of ice. Two separate jams between St. Louis and Rush Tower are contributing to the water-backing, although below Rush Tower the river was reported clear.

DETECTIVES WEAVE NET OF EVIDENCE ABOUT 2 OF THEM

WANDREI IS A MEMBER OF A ST. PAUL FASHIONABLE FAMILY

YOUNG WHALEY, WHEN ARRESTED, SAID GOING TO JAIL WAS ANOTHER THRILL

St. Paul, Jan. 6.—(U.P.)—Wondering why police, the newspapers and the world generally should be so unethical, the college student "thrill robbers" in their jail cells here today prepared to face the court in their first battle with the law.

They are Howard Wandrei of St. Paul, a sophomore at the University of Minnesota, and Wendall Whaley, of Minneapolis, freshman and campus pal of Wandrei. The youths, along with two others, have admitted nearly a dozen housebreaking crimes in St. Paul in two months.

While detectives continued to weave their net of evidence around him, Wandrei, a member of one of St. Paul's fashionable families, sat in his cell smoking innumerable cigarettes and occasionally running a thin hand through his shock of wavy hair. He still insists that the "thrill of being a robber" was all there was to it, and that the reading of crime stories had no part in his choice for a life of thrills. Detective fiction, he termed "trash" and said he had no time for it.

Young Whaley when arrested at a class room at the university, declared that going to jail would be "just another thrill." Today he is a sober, penitent youth, apparently little concerned with what happens to him. As he sits in his cell in a station across town from his partner, Wandrei, Whaley has little to say. He is a much changed youth. The hard prison cot, the rough meals and the "poor lighting" of his cell—things about which he complained the first day he was locked up, caused him no concern today.

He met his interviewers with an attitude of resignation. Nothing seemed to matter. He was remorseful—the thrill of it all had gone.

Young Wandrei spent much of his time today denying that everything appeared in his diary was the truth. The diary, taken by police in a raid on his room yesterday was given to newspapers and certain pages made interesting reading last night and today.

Terming most of it as "mere fiction, created from my mind to afford something for me to do," Wandrei endeavored to convince his audience that he is not nearly as bad as parts of his record of life for the past 18 months would lead a reader to believe.

Both Wandrei and Whaley expressed great relief that the police, after questioning them for several hours, concluded that they knew nothing of the murder of Pearl Osten, pretty Minnesota college co-ed, whose mutilated body was found in an abandoned woodshed last October. The indications on certain pages of Wandrei's diary led police to believe that possibly the youths might know something of the crime. After a four-hour quiz, however, it was announced that the boys knew nothing more than they had read.

St. Paul last night instituted a search for a girl, believed to have been with the youths on at least two of their robbing tours. While authorities said that it was probable the girl had no part in the robberies, she is believed to have waited for them, and shared the loot.

Early today, however, it was indicated at police headquarters that the girl hunt apparently had ceased.

He previously entered the same plea when arraigned for the murder of Marion Parker, 12. Trial date on that charge was set for Jan. 25.

HEAVY ICE JAM IN MISSISSIPPI NEAR ST. LOUIS

BROKE LATE YESTERDAY, AGAIN LOCKED, REFLOATING 30 VESSELS

KEY JAM, ACCORDING TO REPORTS, 45 MILES SOUTH AT RUSH TOWER

St. Louis, Mo., Jan. 6.—(UP)—A heavy ice jam in the Mississippi river which broke late yesterday, grounding 30 vessels below here, was again locked today, sending the river level to the 20 foot mark and refloating the grounded craft.

The key jam, according to reports to J. R. Parker, wharfmaster here, was at Rush Tower, 45 miles south, where the ice was packed to a depth of more than 15 feet. An island in mid-river was holding the flow.

In event the jam again breaks, further vessels face grounding, Parker said, as it would lead to a sudden drop in the back-water level here. No serious damage has been done, he said, although a force of men was held in readiness to man the vessels and avert foundering.

The jam first occurred during the recent cold wave, and blocked this river here with huge, jagged chunks of ice. Two separate jams between St. Louis and Rush Tower are contributing to the water-backing, although below Rush Tower the river was reported clear.

DETECTIVES WEAVE NET OF EVIDENCE ABOUT 2 OF THEM

WANDREI IS A MEMBER OF A ST. PAUL FASHIONABLE FAMILY

YOUNG WHALEY, WHEN ARRESTED, SAID GOING TO JAIL WAS ANOTHER THRILL

St. Paul, Jan. 6.—(UP)—Wondering why police, the newspapers and the world generally should be so unethical, the college student "thrill robbers" in their jail cells here today prepared to face the court in their first battle with the law.

They are Howard Wandrei of St. Paul, a sophomore at the University of Minnesota, and Wendall Whaley, of Minneapolis, freshman and campus pal of Wandrei. The youths, along with two others, have admitted nearly a dozen housebreaking crimes in St. Paul in two months.

While detectives continued to weave their net of evidence around him, Wandrei, a member of one of St. Paul's fashionable families, sat in his cell smoking innumerable cigarettes and occasionally running a thin hand through his shock of wavy hair. He still insists that the "thrill of being a robber" was all there was to it, and that the reading of crime stories had no part in his choice for a life of thrills. Detective fiction, he termed "trash" and said he had no time for it.

Young Whaley when arrested at a class room at the university, declared that going to jail would be "just another thrill." Today he is a sober, penitent youth, apparently little concerned with what happens to him.

As he sits in his cell in a station across town from his partner, Wandrei, Whaley has little to say. He is a much changed youth. The hard prison cot, the rough meals and the "poor lighting" of his cell—things about which he complained the first day he was locked up, caused him no concern today.

He met his interviewers with an attitude of resignation. Nothing seemed to matter. He was remorseful—the thrill of it all had gone.

Young Wandrei spent much of his time today denying that everything appeared in his diary was the truth. The diary, taken by police in a raid on his room yesterday was given to newspapers and certain pages made interesting reading last night and today.

Termining most of it as "mere fiction, created from my mind to afford something for me to do," Wandrei endeavored to convince his audience that he is not nearly as bad as parts of his record of life for the past 18 months would lead a reader to believe.

Both Wandrei and Whaley expressed great relief that the police, after questioning them for several hours, concluded that they knew nothing of the murder of Pearl Osten, pretty Minnesota college co-ed, whose mutilated body was found in an abandoned woodshed last October. The indications on certain pages of Wandrei's diary led police to believe that possibly the youths might know something of the crime. After a four-hour quiz, however, it was announced that the boys knew nothing more than they had read.

St. Paul last night instituted a search for a girl, believed to have been with the youths on at least two of their robbing tours. While authorities said that it was probable the girl had no part in the robberies, she is believed to have waited for them, and shared the loot.

Early today, however, it was indicated at police headquarters that the girl hunt apparently had ceased.

"BOSSY" GILLIS OVERHAULS TOWN OF NEWBURYPORT

REORGANIZES STREET DEPARTMENT, GIVES FIRE DEPARTMENT "SHAKEUP"

LAYS PLANS TO CLEAR STREETS OF SNOW DURING THE WINTER

Newburyport, Mass., Jan. 6.—(UP)—Newburyport's municipal machinery has received its first overhauling at the hands of the city's new mayor, "Bossy" Gillis.

The autumn-haired ex-sailor was in his office only 30 minutes yesterday, but during that time he reorganized the street department, effected a "shakeup" in the fire department, and laid plans for clearing the streets of snow during the winter.

Without even removing his hat or coat, "Bossy" penned his drastic orders on the back of a soiled envelope and handed municipal employees the greatest jolt they had ever received.

First to fall under the displeasure of "Newburyport's Mussolini" was "Goldtooth" Mahoney, without whose foremanship no construction gang has been considered complete in this city.

"He did me dirt during the campaign," the new mayor explained, "and he is definitely among the outs. He can loaf somewhere else in the future."

The names of the Roman family were stricken from the payroll "because one of 'em once called me the 'Jakey mayor'".

A few other street department employees were "fired" and some were switched to different jobs.

"There's some fellars that think a day's pay for shovelling slush is as good a graft as a ticket to the U. S. senate," the mayor explained, "and if I can give 'em what they want I'm going to do it."

Blizzards will be given no quarter in Newburyport this winter, "Bossy" made it plain in outlining his snow removal campaign.

"Get 'em while they're young and don't let 'em grow on you," he instructed his new street superintendent, John I. Nevins.

"Bossy" announced that contracts for horse hire would be divided among six stablemen and ice dealers. One who is not likely to benefit thereby is former Mayor Cashman. The present mayor once served thirty days in jail for hitting Cashman on the jaw.

"We'll use no Cashman plugs except in a great emergency," the mayor said.

"What do you mean, 'great emergency'?" Nevins asked.

"A storm that stops everything from railroad trains to the town clock," snapped Bossy. "Then wait till every other horse in Newburyport is dead from exhaustion. After that maybe we'll do business with Cashman."

Turning to the fire department, "Bossy" demoted Morris Broderick, driver of the hook and ladder truck.

"He smashed up a \$9,000 piece of apparatus last year," the mayor explained. "That motor's too big for him. I'm sending him to station No. 2 to drive the hose wagon. That's horse drawn. A fellow named Casey has been driving it. He's out of luck."

"Bossy" was asked why Casey was being discharged.

"Oh, he'll know," was the prompt reply. "Ask him what his relatives have been saying about the relatives of the present mayor."

NEW POLICE CODE BY GOB MAYOR

Newburyport, Mass., Jan. 6.—(UP)—Thanks to Mayor "Bossy" Gillis, the red-haired ex-sailor, Newburyport had a brand new police code today.

The city's 17 "cops" most of whom had arrested "Bossy" at one time or another, were lined up at headquarters last night and told "where they get off."

"I want you fellars to keep the kids out of the poolrooms and I want you to keep 'em off the streets after 9 o'clock at night," Bossy said. "When I was a kid I used to like to shoot a game of pool and I used to like to hang around town late, but I don't think it done me any good."

"In making pinches don't use your clubs unless absolutely necessary. There ain't no real tough eggs in this town. We haven't none of what you'd call hard-boiled citizens. Some of 'em get crazy on rat poison liquor and wood alcohol, but that's the worst they do."

"Something's got to be done about this—hen stealing. It's mighty

tough when a guy goes to bed with a poultry farm and wakes up without an egg for breakfast. I know who some of the thieves are." (Bossy proceeded to name a few).

"Now about you fellars loafing in restaurants. It's all right to go into a place to get a cup of coffee to warm you up. But don't take a half hour and get to arguing about politics. The guys you argue with will go out and talk about you, just like they did about me."

BABE RUTH'S OPINION OF TEX RICKARD

New York, Jan. 6.—(UP)—"Tex" Rickard, the champion boxing promoter, is a mistake when it comes to picking amateur fighters—take it from Babe Ruth.

The "King of Swat" is hunting for Rickard with a bill of \$1,900, the result of wagers on the eight amateur bouts at the dinner of champions Wednesday night.

Ruth picked five winners in a row and when a pair of heavies appeared, Rickard brightened up and bet the Babe \$1,900 to 10 cents. The Rickard selection went well but the Ruth favorite got started and mauled the Rickard man all over the ring.

HUGE SNOWDRIFTS DELAY ATTEMPTS MADE AT RESCUE

Seattle, Wash., Jan. 6.—(UP)—Huge snowdrifts today delayed rescue parties endeavoring to carry food to 52 persons snowbound in the Cascade mountains near Enumclaw.

Snow, ice and fallen trees blocked the roads leading to the mountainous camps where New Year's celebrants were marooned by a heavy snowfall. Twenty-five state road workers sent word by telephone from a camp high in the mountains that they were living on half rations.

24,000 Persons Killed in U. S. in 1927 by Cars and Motorcycles

Chicago, Jan. 6.—(UP)—More than 24,000 persons were killed in the United States in 1927 by automobiles and motorcycles, the National Safety council estimated today, on the basis of reports from 110 cities. The number was an increase of approximately 500 over 1926.

A decrease from the 1926 toll was shown by several cities, the council said.

"Chang" Draws Crowds at Lyceum

POSTPONE INQUEST INTO THE DEATH OF PROHIBITION AGENT

Hastings, Minn., Jan. 6.—(UP)—Indefinite postponement of the inquest into the death of Wesley A. Fraser, prohibition agent, killed Monday by Gulo Nickolich at the latter's home in South St. Paul, was announced today. The disappearance of two witnesses, regarded as "important," was given as the reason for continuing the official inquiry. The names of the missing witnesses were withheld.

Willow Has Spread Far

The first weeping willow in England was planted by the pope (1688-1744). He received a present of figs from Turkey and observing a twig in a basket ready to bud, planted it in his garden. Soon it became a fine tree. All the weeping willows there and in America originated from this stock.

Corner Stone of Freedom

The writ of habeas corpus, meaning literally "that you have the body," is one of the oldest writs of common law, points out a lawyer in an article in Liberty. Its purpose, he explains, is to compel the production before the court of a person claimed to be wrongfully held in custody to determine by what right he is detained.

Water Makes Difference

Expert power boatmen say a power boat will make better speed on salt water than on fresh water. This is explained by the fact that a boat displaces less water in salt water, thus reducing the "skin" friction and consequently increasing the speed.

FRIDAY, JANUARY 6, 1928

THE DAYS OF THE SPARE BEDROOM

THE days of the spare bedroom have vanished, and thank your stars for the relief.

That room housed the visitor in its mausoleum gloom. Kept intact like a horsehide sofa or the family album, sunlight rarely streamed in and ventilation was poor. It was kept for occasions just like dad's Sunday suit.

There have been occasions when the sick of the household were housed there. The writer has heard of one courageous physician of Iowa, a pioneer now long since dead, who had the temerity to raise the blinds and open the windows whenever he found a spare bedroom sick chamber ensconced in funeral gloom, and the inhabitants of such a home looked at his work in fresh air dissipation as something revolutionary, certain to kill the patient.

That was also the time, as old timers will remember, when the "night air" was considered sort of dangerous to breathe first hand.

DOMINANT FAMILY TRAITS

It is women, and not men, in the long run, who transmit family traits, points out Rheta Childe Dorr in an article in Liberty magazine.

"Highly bred male lines run out long before female lines of equal rank," continues the author. "Constant wars account, in some measure, for this. In every great war large numbers of superior males are killed off, leaving inferior types to perpetuate the race. The superior women, however, are not killed off, and they not only transmit their heritage to future generations, but they educate and train the children born to the inferior male types."

"Even leaving wars out of the question, it is a strange fact that lineal male lines disappear earlier than the female lines. Thus women are not only the physical carriers of the race, but carriers also of its cultural heritage."

TAKING THE THRILL OUT OF THINGS

THE Minneapolis Journal took the thrill out of the "thrill" robbers, two university boys, by giving their confessed crimes about four inches space on page 27. There was no big spread about their doings. If the thrill bunch were looking for publicity in the Journal, they looked in vain.

If every newspaper treated their crimes in the same way, made them small, sordid happenings just like other police court news, the essence of the so-called thrill would be materially reduced and given its proper perspective.

SEEK UNIFORM SCHOOL DRESS

A MOVE for a uniform dress for high school girls is underway among members of the Parent-Teachers associations in Duluth.

A questionnaire, published in the daily newspapers, asks the opinions of citizens and as soon as the vote is collected and properly tabulated, a decision will be made.

A uniform of dark blue serge with white collars and cuffs, either one or two piece, and costing about \$12.50, is being advocated.

HICKMAN is to have insanity as his defense. It's getting so now that insanity is pleaded as a defense in almost any kind of a criminal case. The Remus case, according to the jury, was insanity of the transitory, emotional kind. Hickman's insanity, with two confessed murders to his credit, is evidently not of the transitory kind.

AN apiarist at Greenbush, Minnesota, says the St. Paul Pioneer Press, insists that it will be a mild winter, because his bees have not sealed up every crack in their hives as they do when a hard winter approaches. It would be interesting to know when the gentleman expects winter to begin.

THE DISPATCH is publishing the personal property tax list of Brainerd people. Every one looks up his own figures first, then runs down the list to see what his neighbor pays and then the rest of his acquaintances.

BASKETBALL is certainly a strenuous game. Take some of the old spectators with generous waist lines—they would last just half a minute in the game. It takes a lot of reserve power to play it.

WITH more and varied industries, larger payrolls, Brainerd will grow more prosperous in this year of 1928. But every one must help to establish new industries here.

REGARDLESS of whether the county fair will ever come to Brainerd, there is nothing to prevent Brainerd from putting on an annual agricultural show.

SAND is proving a better reducer of slippery pavements than ashes. Sand is clean stuff and ashes leave a bad trail on rug or floor.

THE Great Northern Railway Company has awarded St. Cloud shops a huge contract for building freight cars, etc.

BASKETBALL seems to have the town in as firm a grip this winter, as baseball in summer and football in autumn.

FRANK L. MURLOWSKI, former Brainerd boy, is now manager of the Park-Beach hotel, 5327 Cornell Avenue, Chicago.

RABBITS are eating all the acorns in the vicinity of Bottineau, Minn., and preventing the growth of oak trees.

THE hub of Bemidji high school's basketball play is a six foot, two inch tall center named Bethel.

THE lessening use of the word Xmas will gradually result in its complete obliteration.

WELL, the holiday rush is over for another year.

SYNOPSIS

A strange young man, one who obviously has seen better days but is now destitute and nearly blind, befriends Mickey Grogan, waif of the streets, and in gratitude Mickey leads him to the home of his benefactor, Winifred Davidson. The young man gives his name as Jeffrey Shore and accepts Mickey's offer to provide food, little suspecting the means he is to employ. He is somewhat taken back when Mickey leads him into the apartment of a pretty young lady, but she reassures him of welcome and invites him to sleep in the attic of the house. While she is showing them to his quarters, Al Nevers, bully and pugilistic, comes up the stairs and Winifred hurries back to meet him. He attempts to force her to accompany him and she shuts the door in his face while Mickey and Jeffrey, listening from above, wish desperately there was some way for them to help.

Al beat on the door, but he saw that his efforts to change Winifred's mind, would be useless. "All right Winnie, Ya don't know what you're missin'," was Al's parting shot before he stepped away from her door and started down the stairs. "Who is the gentleman who made that last remark?" Jeffrey asked Mickey. "If that's a gent, then I'm Sir Gallyhead," answered Mickey. "That bunch of tripe is Al Nevers head of the shippin' department in the factory where Winnie works. On the side he does a lot of middle-weight boxin', but if ya ask me

She led him up to the attic room.

who did he ever lick, ya got me, bo. I don't think he could lick an' all-day sucker."

Below them, Winnie's door opened cautiously and she tiptoed up the stairs to rejoin them. Between the time that Al had left and she had emerged, she had changed to a pretty blue dress, as though her negligence, having been touched by Al, was now contaminated. Taking Jeffrey's hand again, she led him up to the attic room, warning Mickey to silence if they did not wish to face the landlady's discovery.

The attic was a romantic room piled with old furniture, boxes, trunks and mysterious-looking chests. There was an odor of old lavender about the place that added to its romantic quality, and it was easy to people the spaces with charming ladies in hoop-skirts and bustles and handsome men in frock-coats and top-hats. As Winifred entered the attic, her hand in Jeffrey's, she thought over the strange incidents of the day. She remembered her happiness, a happiness that she could not explain even to herself. She remembered Mr. Cabel's words about meeting a man six feet tall "with interesting eyes." Winifred wanted to tell Jeffrey about it; but after a moment's consideration, she decided that the time was premature. After all, she had not even known him an hour!

There was a roll of discarded bedding in one corner, and with Jeffrey's help, this was spread down on the floor near the small diamond-shaped window. Here a shaft of moonlight from the rising moon spread fan-wise across the floor, revealing the dust and cobwebs, and the dim, spectral forms of trunks and cast-off furniture.

Winnie showed them the electric light switch but suggested caution in using it, for fear that the landlady might come up to investigate. Jeffrey declared that he had always preferred the moonlight and gallantly offered the young girl a seat on one end of the old mattress. Winifred blushed and was glad it was so dark; then she remembered that Jeffrey was going blind and there was a sadness that crept over her. She sat down and he took his place beside her.

She saw how the rays of the moon, showering him with silver, brought out his sensitive profile, the fine chin and tender mouth, the thin, high-bridged nose. Only his eyes, confessed his tragedy, the strained, terror-filled eyes of a man going blind. Winnie was touched by those eyes; and yet she felt a rare exaltation in the adventure. She was thrilled. The old attic with its musty lavender fragrance, its old, picturesque furniture, the sloping rafters of the roof—this was a background of romance. She glanced side-ways at Jeffrey and saw how like a gentleman of leisure he seemed; was it possible that he did not have enough money to even buy a bed for the night? And yet, Mickey had told her this very

thing, and she knew that the child had not lied to her. Yes, Jeffrey Shore was a gentleman even in his frayed clothes. He was a man of fine imagination, of ideas, and he was susceptible, deeply so, to beauty. All these things, Winifred could read in his face.

"You two seem kinda inter-ested in each other," called Mickey from the other end of the attic. "I bet I'm somethin' that Jeffrey ain't. An' I'm somethin' that Winnie ain't neither."

"What are you that we ain't?" asked Winifred.

"I'm 'aggard," said Mickey. "Congratulations!" called Jeffrey. "When will the wedding be?"

"Oh, just as soon as Susan gets a job," said Mickey.

"Ah, I see you're one of those old-fashioned men who believes in letting the lady do the hard work," said Winifred.

"Oh, I want her to work so's she'll keep out of mischief," said Mickey in a serious voice. But Jeffrey and Winifred were now so absorbed in one another that they seemed not to have heard Mickey's last remark. He murmured something about returning in a few minutes and slipped quietly from the attic. The two young people were left alone in the moonlight.

"Can't something be done about your eyes, Mr. Shore?" she asked him sympathetically.

"I'm afraid not. When I first went to a doctor he said that an operation might make me totally blind. He hoped then that nature would sort of re-adjust itself." He paused, sighing. "Oh, well, as Mickey's friend says, 'There's

Writes of Garment Factory

Editor, Brainerd Dispatch:

The writer was unexpectedly called out of the city today and while I did not like to leave the city until the Hickerson Inc. stock was all sold, yet I had no choice in the matter and will not be able to get back to Brainerd until late Saturday evening. In the meantime I would like to see every man on the committee put forth special efforts in order to accomplish the desired end.

I also wish to call the attention of Brainerd people upon whom it depends whether or not we are going to have the new industry which Brainerd desires so much. This is the first time that Brainerd people have had the opportunity to invest their money in a good legitimate new enterprise and anyone having the means to do so should offer his or her subscription for stocks at once. Do not wait for someone to ask you for it. It is your industry. It does not belong to any one person nor does it benefit any one person nor a small group of persons. It is to be a Brainerd enterprise which will benefit each and every one in the city. You are assured a good return on your money directly and your money is going to do a lot more indirectly. Get behind the proposition. Don't leave it to the few who are always digging down in their pockets and giving liberally of their time. Do your share. This means you, each and every person who has the future of Brainerd at heart. This industry is going to mean more industries and more industries mean employment for more people and a better town.

Put aside these phoney excuses. Dig down deep and do your bit. This cannot wait. It is for you and Brainerd.

WOMAN RETURNED TO ST. PAUL TO FACE FORGERY CHARGE

St. Paul, Jan. 6.—(U.P.)—Jessica Atkinson, 38, under arrest at Omaha, will be returned to St. Paul to face a 2-year-old forgery charge, authorities said today.

The woman, who is said to have served two terms in the penitentiary at Stillwater, had been arrested in April, 1925, on charges of forgery. She posted \$500 bail, then left town. A few months later she was convicted at Omaha on a similar charge.

Her term in the Nebraska penitentiary has expired, and she will be returned here to account for nearly \$2,000 worth of alleged bad checks. Minneapolis police, it was said, hold warrants for her arrest on a similar charge.

RUTH SNYDER AND HENRY JUDD GRAY TO BE EXECUTED SOON

Ossining, N. Y., Jan. 6.—(U.P.)—Mrs. Ruth Snyder entered what probably will be the seventh remaining day of her life after a night of fear during which two men were electrocuted in the death chamber close to her solitary cell.

Charles Doran and Louis Mason, murderers, were electrocuted shortly after 11 P. M.

Mrs. Snyder and Henry Judd Gray, her lover who joined her in killing her husband, are next on the list, due to go to the same chair next Thursday night.

STATE DEPARTMENT IN COLD RECEPTION TO FRENCH NOTE

Washington, Jan. 6.—(U.P.)—The state department today gave a cold reception to the French note proposing that the American suggestion for a multi-lateral declaration of the power against war be limited to aggressive war. The note was delivered by the French Ambassador Claudel, and may be made public tomorrow.

Feeling predominated that since the declaration had no binding force and was only a moral gesture, its value as such would be destroyed by inserting the word "aggressive."

Informed persons said they could not understand the French objection that the proposed declaration would interfere with the League of Nations.

FORMER CONVICT PLEADS GUILTY TO BURGLARIZING

Minneapolis, Jan. 6.—(U.P.)—James Gilbertson, 25, former convict, late yesterday pleaded guilty to a charge of third degree robbery in connection with the alleged burglarizing of 16 South Minneapolis residences during the past two months.

Gilbertson appeared in court without an attorney, and Judge Frank E. Reed, before whom the plea was made declined to accept the prisoner's action until he had consulted with the public defender.

Age Not Important

"It is not the number of times the earth has traveled about the sun that determines when a man has reached the zenith of ability," according to the Ann Arbor Times-News. And yet, Mickey had told her this very

nuthin' so bad we can't be thankful it ain't worse." And because they were both young, they forgot sadness and trouble for the moment, and laughed together.

Mickey had been too proud to ask food for his friend and himself. Winifred had helped him so often in the past that he was a little embarrassed to ask her again. He knew her to be a girl who made her own living. She had to work hard for everything she got, and it seemed rather inconsiderate to ask her again.

Mickey had slipped away from the attic to rustle up food—and in the tenements this is like finding meat on clean-picked bones. He first went into a delicatessen store on the corner and caught the attention of a tall, lean man behind the counter with a spotted apron tied about his middle.

"Mr. Freyerschutz, please. I'd like three slices of roastbeef and loaf o' white bread," spoke up Mickey. He had an idea.

The man addressed as Mr. Freyerschutz looked suspiciously at his small customer and then went to get the beef. As he cut the appetizing slices of beef off the joint, Mickey's mouth watered and his small hands clenched with desire. And to think that some people had more roast beef in their kitchens than they could eat!

Mr. Freyerschutz wrapped up the beef and bread and Mickey held out trembling hands to take the package. "Where's the money?" asked Mr. Freyerschutz reluctant to pass the bundle into Mickey's outstretched hands.

"Money?" asked Mickey. And then he smiled, trying to look as unconcerned as possible. "Oh, I forgot. You're to charge it, Mr. Freyerschutz."

"Charge it to who?" asked the delicatessen merchant putting the package back on the counter. Mickey's dark eyes followed the treasure, and if eyes had been mouths, the package would have been devoured whole within the instant.

"Charge it to me, Mr. Freyerschutz. Me, Mr. Michael A. Grogan."

"So," said Mr. Freyerschutz. "An' maybe you will pay me yet in twenty years from now?"

"Less'n twenty years, Mr. Freyerschutz. Maybe less 'n ten years. 'Cause I'm goin to make a lotta money down in Wall Street. Maybe that'll be less 'n five years. It all depends on the stock market."

"So," muttered Mr. Freyerschutz. "So?" seemed to be the only word in his vocabulary. He repeated it again and again, and each time the "So" grew angrier and less patient.

"Sure, I know all da big guys down on Wall Street," continued Mickey. "An' dey all knows Michael A. Grogan. Maybe if you gives me dat roast beef an' bread on credit, I'll bring down Mr. Morgan to sample some o' your ham. Sure. Surest ting ya know."

"So," said Mr. Freyerschutz. (To be continued)

Writes of Garment Factory

Editor, Brainerd Dispatch:

The writer was unexpectedly called out of the city today and while I did not like to leave the city until the Hickerson Inc. stock was all sold, yet I had no choice in the matter and will not be able to get back to Brainerd until late Saturday evening. In the meantime I would like to see every man on the committee put forth special efforts in order to accomplish the desired end.

I also wish to call the attention of Brainerd people upon whom it depends whether or not we are going to have the new industry which Brainerd desires so much. This is the first time that Brainerd people have had the opportunity to invest their money in a good legitimate new enterprise and anyone having the means to do so should offer his or her subscription for stocks at once. Do not wait for someone to ask you for it. It is your industry. It does not belong to any one person nor does it benefit any one person nor a small group of persons. It is to be a Brainerd enterprise which will benefit each and every one in the city. You are assured a good return on your money directly and your money is going to do a lot more indirectly. Get behind the proposition. Don't leave it to the few who are always digging down in their pockets and giving liberally of their time. Do your share. This means you, each and every person who has the future of Brainerd at heart. This industry is going to mean more industries and more industries mean employment for more people and a better town.

Put aside these phoney excuses. Dig down deep and do your bit. This cannot wait. It is for you and Brainerd.

J. H. KREKELBERG.

WOMAN RETURNED

TO ST. PAUL TO FACE

FORGERY CHARGE

St. Paul, Jan. 6.—(UP)—Jessica Atkinson, 38, under arrest at Omaha, will be returned to St. Paul to face a 2-year-old forgery charge, authorities said today.

The woman, who is said to have served two terms in the penitentiary at Stillwater, had been arrested in April, 1925, on charges of forgery. She posted \$500 bail, then left town. A few months later she was convicted at Omaha on a similar charge.

Her term in the Nebraska penitentiary has expired, and she will be returned here to account for nearly \$2,000 worth of alleged bad checks. Minneapolis police, it was said, hold warrants for her arrest on a similar charge.

RUTH SNYDER AND HENRY JUDD GRAY TO BE EXECUTED SOON

Ossining, N. Y., Jan. 6.—(UP)—Mrs. Ruth Snyder entered what probably will be the seventh remaining day of her life after a night of fear during which two men were electrocuted in the death chamber close to her solitary cell.

Charles Doran and Louis Mason, murderers, were electrocuted shortly after 11 P. M.

Mrs. Snyder and Henry Judd Gray, her lover who joined her in killing her husband, are next on the list, due to go to the same chair next Thursday night.

STATE DEPARTMENT IN COLD RECEPTION TO FRENCH NOTE

Washington, Jan. 6.—(UP)—The state department today gave a cold reception to the French note proposing that the American suggestion for a multi-lateral declaration of the power against war be limited to aggressive war. The note was delivered by the French Ambassador Claudel, and may be made public tomorrow.

Feeling predominated that since the declaration had no binding force and was only a moral gesture, its value as such would be destroyed by inserting the word "aggressive."

Informed persons said they could not understand the French objection that the proposed declaration would interfere with the League of Nations.

FORMER CONVICT PLEADS GUILTY TO BURGLARIZING

Minneapolis, Jan. 6.—(UP)—James Gilbertson, 25, former convict, late yesterday pleaded guilty to a charge of third degree robbery in connection with the alleged burglarizing of 16 South Minneapolis residences during the past two months.

Gilbertson appeared in court without an attorney, and Judge Frank E. Reed, before whom the plea was made, declined to accept the prisoner's action until he had consulted with the public defender.

Age Not Important

"It is not the number of times the earth has traveled about the sun that determines when a man has reached the zenith of ability," according to the Ann Arbor Times-News. "More important is the question of how he has lived while those journeys were being made. Age, according to the calendar, really means very little. In fact, age itself may be something of an illusion."

Who's Who On The American Legion Team

Marshall-Forward

Another star of high school and college fame to make a place on the American Legion team of Brainerd is Marshall who through his height of 5 feet 11 inches has developed into a valuable man to the team. He weighs 150 pounds, is a fast floor man and developing accuracy in shooting. His basket shooting in high school was a deadly fact to all teams and at Macalester he was third high point getter in the colleges for 1926. Marshall played three years on the high school team of Brainerd. This is his first year of independent basketball.

SPORTSMATTER

BY FRANK GETTY
UNITED PRESS SPORTS EDITOR

After the tumult and the shouting about the football rules had reached its height in New York last week, E. K. Hall, chairman of the rules committee, rose, and with a few carefully chosen words quieted the uproar and stated calmly that, if everyone was through talking, the rules would remain just about the same in 1928.

There seemed to be a mistaken idea abroad to the effect that last week's meetings were for the purpose of changing the gridiron code.

Nothing could have been further from the truth. As a matter of fact, the rules committee will not meet for a couple of months to decide upon the regulations for 1928.

The meetings in New York provided an opportunity for those with legitimate interest in the matter to propose changes. The first to meet were the football officials. Now, 1927 had been a rather poor year for officials, some of whom had come in for considerable abuse from partisan spectators. The football officials, therefore, were expected to attack the rules strenuously and demand changes. But they didn't.

Before their meeting was fairly under way, in walked E. K. Hall. Without over-emphasis, the rules committee chairman explained and defended the present code. When he had finished, the wind had been taken out of the officials' whistles and their recommendations regarding the regulations were mild indeed.

The officials proposed such changes as the following:
That the fields be marked 15 yards from the sidelines to assist officials in determining where the ball goes out of bounds, and that the end zone be marked with diagonal lines;

That a penalty be imposed when an offside player touches a punt and that a field goal be scored if the ball touches a defensive player in the end zone and goes over the cross bar;

That an illegal forward pass which is grounded become a dead ball and that time out shall ensue on backward and lateral passes as well as forward passes.

From the nature of their suggestions, it can be seen that the officials were fairly well tamed. They approved the present location of the goal posts. The coaches, of course, had considerably more to say for themselves, but when the smoke of verbal battle had been fanned away, the figure of E. K. Hall could be observed still triumphantly defending the present code.

In one vital matter, Hall and the coaches and officials were in accord. Both agreed that the game of football, as developed about 1920 and 1921, was the most desirable of any era.

They differed merely as to the method of standardizing the game at that stage. Some of the coaches were unkind enough to refer to the efforts of the rules committee as "tinkering."

Hall explained that the various committees on which he has served as chairman were concerned merely with making the game safer for the players, clearer to the spectators and simpler for the officials.

As this endeavor had the approval of the coaches, everyone wished everyone else a happy new year and departed to await the meeting of the rules committee late next month or early in March.

TO DEFEND HIS TITLE AGAINST ABERDEEN MAN

IF HE IS SUCCESSFUL, LOUGHRAN WANTS BOUT WITH GENE TUNNEY

LOMSKI CONSIDERED ROUGHEST, TOUGHEST 175-POUNDER IN RING

By GEORGE KIRKSEY

(United Press Staff Correspondent)

New York, Jan. 6.—Tommy Loughran of Philadelphia, the world's light-heavyweight champion, has hitched his wagon to a star.

Tonight in Madison Square Garden, Loughran will defend his title against Leo Lomski, the Aberdeen (Wash.) Assassin, in a scheduled 15-round bout and if he is successful he wants a bout with Gene Tunney.

"I am fit and ready to defend my title against Lomski," Loughran said. "Although I probably shall be facing the toughest fight of my career, I believe I'll win. Then I shall go after a match with Gene Tunney for the heavyweight title."

Loughran promised he'd be a "fightin' champion" when he won recognition as the 175-pound-champion in New York state by beating Mike McTigue.

There was another light-heavyweight champion around — Jimmy Slattery, the National Boxing Association's entry — and Tommy could not get Jimmy in a ring soon enough to suit him. Loughran gave a masterful exhibition of boxing skill to shade Jimmy in 15 rounds.

Tonight Loughran is taking on the roughest, toughest 175-pounder in the ring. If Loughran beats Lomski, there'll be only Jack Delaney, the retired light-heavyweight champion who just at present is being snubbed by the heavyweights, left to give him a battle at his own weight.

But Delaney is not apt to consent to a bout with Loughran until he has definitely been eliminated from the heavyweight ranks.

A Loughran-Tunney bout for the heavyweight title is not so far-fetched as it may seem.

Loughran has built himself up from the middleweight ranks and

might be able to take on 5 or 10 pounds more before summer rolls around, but even at 175 pounds he might give Tunney more trouble than Paolino, Heeney, Dempsey or any of the other heavyweight contenders.

Dempsey has failed in two bouts with Tunney. Paolino with his clumsy style might find it difficult to lay a glove on Tunney. Heeney is little, if any, better than Paolino. Sharkey isn't as good a prospect as he was a year ago.

With Tunney wanting to do so much boxing next summer, he'll find Loughran a ready and willing opponent.

In the meantime Loughran must dispose of Lomski.

The raw, western scrapper is made to order for Loughran's style. Lomski goes rushing and tearing after his opponent. Loughran is a past master of counter-fighting and Leo may find more left gloves stuck in his face tonight than he's seen for some time past.

Lomski's chance is to wear Loughran down in the early rounds and get over a knockout. No one ever has stopped Tommy, but Lomski's backers are wagering that Leo turns the trick at odds of 1 to 6.

The champion, however, is a 6 to 5 favorite.

JOESTING GIVES OUT FUTURE PLANS

HE AND HIS WIFE WILL RESUME STUDIES AT THE UNIVERSITY

Minneapolis, Jan. 6.—Herb Joesting, twice all-American fullback, and his bride returned to Minneapolis yesterday after spending several days honeymoon in southern California following the East vs. West football charity classic in San Francisco on Christmas day.

Joesting dispelled rumors of ac-

cepting business or alluring professional athletic offers by registering at the university today. He and his wife have taken an apartment near the university, and both will resume their studies at Minnesota. Joesting expresses little interest in anything except married life and school. He did say that he intended to continue accepting invitations to speak at various boys' banquets and clubs, because he was interested in boys' work, and especially in boys' summer camps. Last summer, Joesting acted as a counselor at Camp Lincoln for boys, near Brainerd, and he is considering directing some boys' camp this coming summer after his university work closes.

FIRST STRING MEN LEAVE FOR GAME AT ST. CLOUD TONIGHT

COACH WARREN KASCH TAKES SEVEN MEN TO BATTLE FAST TECH-HIGH AGGREGATION

MEET CROSBY-IRONTON HIGH HERE IN CONFERENCE TILT, FRIDAY, JANUARY 13

Brainerd high school's first team will represent this city in the exhibition classic with the St. Cloud Tech-High at the St. Cloud auditorium this evening in what should prove another high class game of the season.

Coach Kasch reported this morning that the St. Cloud team is made up of a fast, hard fighting aggregation who have already ticked a number of victories under their belt this season.

The locals will again have the opportunity of testing their worth on a large gym floor. They demonstrated in the game with Bemidji last Monday night at Bemidji that they were capable of holding their own on a large floor.

The following men will leave with Coach Kasch by chartered taxi early this evening for St. Cloud: Swanson, Wise, Hautala, forwards; Guin, center; Welliver, Lacourse, guards.

After their clash tonight the locals will devote next week to preparing themselves for the conference game with the Crosby-Ironton team to be played here Friday, January 13.

Who's Who On The American Legion Team

Marshall-Forward
Another star of high school and college fame to make a place on the American Legion team of Brainerd is Marshall who through his height of 5 feet 11 inches has developed into a valuable man to the team. He weighs 150 pounds, is a fast floor man and developing accuracy in shooting. His basket shooting in high school was a deadly factor to all teams and at Macalester he was third high point getter in the colleges for 1926. Marshall played three years on the high school team of Brainerd. This is his first year of independent basketball.

Certain kinds of blue cloth stamped "holy" are worn by wandering Moors of Africa who believe it makes them immune to disease.

SPORTSMATTER

After the tumult and the shouting about the football rules had reached its height in New York last week, E. K. Hall, chairman of the rules committee, rose, and with a few carefully chosen words quieted the uproar and stated calmly that, if everyone was through talking, the rules would remain just about the same in 1928.

There seemed to be a mistaken idea abroad to the effect that last week's meetings were for the purpose of changing the gridiron code.

Nothing could have been further from the truth. As a matter of fact, the rules committee will not meet for a couple of months to decide upon the regulations for 1928.

The meetings in New York provided an opportunity for those with legitimate interest in the matter to propose changes. The first to meet were the football officials. Now, 1927 had been a rather poor year for officials, some of whom had come in for considerable abuse from partisan spectators. The football officials, therefore, were expected to attack the rules strenuously and demand changes. But they didn't.

Before their meeting was fairly under way, in walked E. K. Hall. Without over-emphasis, the rules committee chairman explained and defended the present code. When he had finished, the wind had been taken out of the officials' whistles and their recommendations regarding the regulations were mild indeed.

The officials proposed such changes as the following:
That the fields be marked 15 yards from the sidelines to assist officials in determining where the ball goes out of bounds, and that the end zone be marked with diagonal lines;

That a penalty be imposed when an offside player touches a punt and that a field goal be scored if the ball touches a defensive player in the end zone and goes over the cross bar;

That an illegal forward pass which is grounded become a dead ball and that time out shall ensue on backward and lateral passes as well as forward passes.

From the nature of their suggestions, it can be seen that the officials were fairly well tamed. They approved the present location of the goal posts. The coaches, of course, had considerably more to say for themselves, but when the smoke of verbal battle had been fanned away, the figure of E. K. Hall could be observed still triumphantly defending the present code.

In one vital matter, Hall and the coaches and officials were in accord. Both agreed that the game of football, as developed about 1920 and 1921, was the most desirable of any era.

They differed merely as to the method of standardizing the game at that stage. Some of the coaches were unkind enough to refer to the efforts of the rules committee as "tinkering."

Hall explained that the various committees on which he has served as chairman were concerned merely with making the game safer for the players, clearer to the spectators and simpler for the officials.

As this endeavor had the approval of the coaches, everyone wished everyone else a happy new year and departed to await the meeting of the rules committee late next month or early in March.

TO DEFEND HIS TITLE AGAINST ABERDEEN MAN

IF HE IS SUCCESSFUL, LOUGHRAN WANTS BOUT WITH GENE TUNNEY

LOMSKI CONSIDERED ROUGHEST, TOUGHEST 175-POUNDER IN RING

By GEORGE KIRKSEY
(United Press Staff Correspondent)

New York, Jan. 6.—Tommy Loughran of Philadelphia, the world's light-heavyweight champion, has hitched his wagon to a star.

Tonight in Madison Square Garden, Loughran will defend his title against Leo Lomski, the Aberdeen (Wash.) Assassin, in a scheduled 15-round bout and if he is successful he wants a bout with Gene Tunney.

"I am fit and ready to defend my title against Lomski," Loughran said. "Although I probably shall be facing the toughest fight of my career, I believe I'll win. Then I shall go after a match with Gene Tunney for the heavyweight title."

Loughran promised he'd be a "fightin' champion" when he won recognition as the 175-pound-champion in New York state by beating Mike McTigue.

There was another light-heavyweight champion around — Jimmy Slattery, the National Boxing Association's entry — and Tommy could not get Jimmy in a ring soon enough to suit him. Loughran gave a masterful exhibition of boxing skill to shade Jimmy in 15 rounds.

Tonight Loughran is taking on the roughest, toughest 175-pounder in the ring. If Loughran beats Lomski, there'll be only Jack Delaney, the retired light-heavyweight champion who just at present is being snubbed by the heavyweights, left to give him a battle at his own weight.

But Delaney is not apt to consent to a bout with Loughran until he has definitely been eliminated from the heavyweight ranks.

A Loughran-Tunney bout for the heavyweight title is not so far-fetched as it may seem.

Loughran has built himself up from the middleweight ranks and

might be able to take on 5 or 10 pounds more before summer rolls around, but even at 175 pounds he might give Tunney more trouble than Paolino, Heeney, Dempsey or any of the other heavyweight contenders.

Dempsey has fallen in two bouts with Tunney. Paolino with his clumsy style might find it difficult to lay a glove on Tunney. Heeney is little, if any, better than Paolino. Sharkey isn't as good a prospect as he was a year ago.

With Tunney wanting to do so much boxing next summer, he'll find Loughran a ready and willing opponent.

In the meantime Loughran must dispose of Lomski.

The raw, western scrapper is made to order for Loughran's style. Lomski goes rushing and tearing after his opponent. Loughran is a past master of counter-fighting and Leo may find more left gloves stuck in his face tonight than he's seen for some time past.

Lomski's chance is to wear Loughran down in the early rounds and get over a knockout. No one ever has stopped Tommy, but Lomski's backers are wagering that Leo turns the trick at odds of 1 to 6.

The champion, however, is a 6 to 5 favorite.

JOESTING GIVES OUT FUTURE PLANS

HE AND HIS WIFE WILL RESUME STUDIES AT THE UNIVERSITY

Minneapolis, Jan. 6.—Herb Joesting, twice all-American fullback, and his bride returned to Minneapolis yesterday after spending several days honeymoon in southern California following the East vs. West football charity classic in San Francisco on Christmas day.

Joesting dispelled rumors of ac-

cepting business or alluring professional athletic offers by registering at the university today. He and his wife have taken an apartment near the university, and both will resume their studies at Minnesota. Joesting expresses little interest in anything except married life and school. He did say that he intended to continue accepting invitations to speak at various boys' banquets and clubs, because he was interested in boys' work, and especially in boys' summer camps. Last summer, Joesting acted as a counselor at Camp Lincoln for boys, near Brainerd, and he is considering directing some boys' camp this coming summer after his university work closes.

FIRST STRING MEN LEAVE FOR GAME AT ST. CLOUD TONIGHT

COACH WARREN KASCH TAKES SEVEN MEN TO BATTLE FAST TECH-HIGH AGGREGATION

MEET CROSBY-IRONTON HIGH HERE IN CONFERENCE TILT, FRIDAY, JANUARY 13

Brainerd high school's first team will represent this city in the exhibition classic with the St. Cloud Tech-High at the St. Cloud auditorium this evening in what should prove another high class game of the season.

Coach Kasch reported this morning that the St. Cloud team is made up of a fast, hard fighting aggregation who have already tucked a number of victories under their belt this season.

The locals will again have the opportunity of testing their worth on a large gym floor. They demonstrated in the game with Bemidji last Monday night at Bemidji that they were capable of holding their own on a large floor.

The following men will leave with Coach Kasch by chartered taxi early this evening for St. Cloud: Swanson, Wise, Hautala, forwards; Guin, center; Welliver, Lacourse, guards.

After their clash tonight the locals will devote next week to preparing themselves for the conference game with the Crosby-Ironton team to be played here Friday, January 13.

Mandan, N. D., Jan. 6. — (UP)—The death of four children as the result of diphtheria in homes completely blocked by drifted snow was described by Dr. Frank C. Lorenzon of Elgin who returned late yesterday from the fifty-mile trek through snow drifts and sub-zero weather on his errand of mercy. Dr. Lorenzon found, besides the four children dead, six others critically ill and at least 20 other persons exposed to the disease.

Dirck and his wife, crazed by grief and themselves ill, fought with the doctor against administering antitoxin to other members of the family, exposed to the disease. Other homes in the countryside held victims of the disease which Dr. Lorenzon attended.

The Most Familiar Package
in My Kitchen

THE sealed red tin of Nash's Delicious Coffee is the most familiar package in my kitchen. It is as necessary in the preparation of a good meal as the kitchen stove. This remark is echoed by thousands of American women. Painstaking care in the selection of green coffees, in the roasting, in the steel cutting which eliminates chaff and dust, and finally the air tight packing in tin, are the reasons for the remarkable popularity of Nash's Delicious Coffee among particular people.

The Most Familiar Package in My Kitchen

THE sealed red tin of Nash's Delicious Coffee is the most familiar package in my kitchen. It is as necessary in the preparation of a good meal as the kitchen stove. This remark is echoed by thousands of American women. Painstaking care in the selection of green coffees, in the roasting, in the steel cutting which eliminates chaff and dust, and finally the air tight packing in tin, are the reasons for the remarkable popularity of Nash's Delicious Coffee among particular people.

The following communication was

received from John H. Krekelberg:
Honorable Board of County Commis-
sioners,
Crow Wing County, Minnesota.
Gentlemen:

I herewith submit for your con-
sideration two proposals for option,
lease and purchase of property be-
longing to Crow Wing County, com-
monly known as the "old court
house, sheriff's residence, jail and
lock-up," in the City of Brainerd,
to-wit:

Proposal No. 1

I will pay to the County of Crow
Wing Five dollars (\$5.00) for an
exclusive right and option for a
period of three years from the date
of the giving of the same, to pur-
chase Lots Nineteen (19) to Twenty-
four (24), both inclusive, Block 48,
Town of Brainerd, according to the
plat thereof in the Registry of Deeds
of said county for the sum of Three
Thousand Dollars (\$3,000.00) pay-
able as follows: \$1,000.00 in cash
upon my election to exercise the said
option, \$500.00 each year thereafter
until the full amount of said pur-
chase price is paid, together with
interest at the rate of six per cent
per annum on all amounts remain-
ing from time to time unpaid on
said purchase price, to be computed
from the date when said sum of \$1,-
000.00 is paid. The option shall
further provide that I may have the
right to occupy said premises during
the life thereof, to make alterations,
repairs and improvements thereto
for the purposes of said occupancy,
and to keep the building on said
premises during the life of said op-
tion and until the entire purchase
price is paid, insured in a reliable
stock insurance company with a loss
payable clause to said county in the
sum of at least \$2,000.00, and to
give bond satisfactory to you to save
the county harmless from any liens,
claims or liability by reason of said
repairs, alterations or improvements,
and it may be further provided in
said option, that in case the rights
given under said option are not
exercised and the property not pur-
chased, all alterations, improvements
and repairs made, shall become the
property of the county at the time
of the expiration of said option.

Proposal No. 2

I will pay to the County of Crow
Wing Five dollars (\$5.00) for an
exclusive right and option for a
period of three years from the date
of giving of the same, to purchase Lots
Thirteen (13) to Eighteen (18),
both inclusive, of the same block in
the same plat as the description in
the first proposal, at a purchase
price of \$1,000.00 to be paid as fol-
lows, to-wit: \$250.00 at the time of
the election to purchase under said
option, \$250.00 every year there-
after until the full amount of said
purchase price is paid, interest to be
computed at the same rate and in
the same manner as in Proposal No.
1. Said option shall also provide
for the right to occupy said premises
during the life of said option, to
make alterations, repairs and im-
provements in the same manner and
upon the same terms and conditions
as set out in Proposal No. 1, provid-
ed, however, that the right to pur-
chase the property specified in this
proposal shall be contingent upon
and shall have no force and effect
unless and until purchase is made
of the property specified in Proposal
No. 1, and provided that no insur-
ance need be carried as provided in
Proposal No. 1, on the property
specified in this proposal.

The two foregoing proposals have
been made by me in my capacity of
Chairman of the Manufacturing
Committee of the Chamber of Com-
merce of Brainerd, Minnesota, so
that said premises may be occupied
and subsequently purchased by a
corporation to be formed known as
"Hickerson, Inc.," so that said pre-
mises may be used by said corpora-
tion when formed carrying on a gar-
ment manufacturing business on said
premises. Therefore, the options if
and when granted should specifically
give to me the right to assign and
transfer my rights there under.

Whereupon, Commissioner Lowe
offered the following resolution and
moved its adoption:

WHEREAS, J. H. Krekelberg has
this day made application in writing
desiring to have a three year option
to purchase certain real estate own-
ed by the County of Crow Wing

48, Town of Brainerd, according to
the plat thereof in the Registry of
Deeds of said county, and said prop-
erty being located in said county
and State of Minnesota, and offering
for an option to purchase said Lots
13 to 18, inclusive, the sum of \$5.00,
and said option to provide for the
occupancy of said premises during
the life of said option and the right
to purchase the same for the sum of
\$1,000.00 upon terms specified in

000.00 upon terms specified in said
application.

Washington, Jan. 6.—(U.P.)—Con-

The following communication was

received from John H. Krekelberg: Honorable Board of County Commissioners, Crow Wing County, Minnesota. Gentlemen:

I herewith submit for your consideration two proposals for option, lease and purchase of property belonging to Crow Wing County, commonly known as the "old court house, sheriff's residence, jail and lock-up," in the City of Brainerd, to-wit:

Proposal No. 1

I will pay to the County of Crow Wing Five dollars (\$5.00) for an exclusive right and option for a period of three years from the date of the giving of the same, to purchase Lots Nineteen (19) to Twenty-four (24), both inclusive, Block 48, Town of Brainerd, according to the plat thereof in the Registry of Deeds of said county for the sum of Three Thousand Dollars (\$3,000.00) payable as follows: \$1,000.00 in cash upon my election to exercise the said option, \$500.00 each year thereafter until the full amount of said purchase price is paid, together with interest at the rate of six per cent per annum on all amounts remaining from time to time unpaid on said purchase price, to be computed from the date when said sum of \$1,000.00 is paid. The option shall further provide that I may have the right to occupy said premises during the life thereof, to make alterations, repairs and improvements thereto for the purposes of said occupancy, and to keep the building on said premises during the life of said option and until the entire purchase price is paid, insured in a reliable stock insurance company with a loss payable clause to said county in the sum of at least \$2,000.00, and to give bond satisfactory to you to save the county harmless from any liens, claims or liability by reason of said repairs, alterations or improvements, and it may be further provided in said option, that in case the rights given under said option are not exercised and the property not purchased, all alterations, improvements and repairs made, shall become the property of the county at the time of the expiration of said option.

Proposal No. 2

I will pay to the County of Crow Wing Five dollars (\$5.00) for an exclusive right and option for a period of three years from the date of giving of the same, to purchase Lots Thirteen (13) to Eighteen (18), both inclusive, of the same block in the same plat as the description in the first proposal, at a purchase price of \$1,000.00 to be paid as follows, to-wit: \$250.00 at the time of the election to purchase under said option, \$250.00 every year thereafter until the full amount of said purchase price is paid, interest to be computed at the same rate and in the same manner as in Proposal No. 1. Said option shall also provide for the right to occupy said premises during the life of said option, to make alterations, repairs and improvements in the same manner and upon the same terms and conditions as set out in Proposal No. 1, provided, however, that the right to purchase the property specified in this proposal shall be contingent upon and shall have no force and effect unless and until purchase is made of the property specified in Proposal No. 1, and provided that no insurance need be carried as provided in Proposal No. 1, on the property specified in this proposal.

The two foregoing proposals have been made by me in my capacity of Chairman of the Manufacturing Committee of the Chamber of Commerce of Brainerd, Minnesota, so that said premises may be occupied and subsequently purchased by a corporation to be formed known as "Hickerson, Inc.", so that said premises may be used by said corporation when formed carrying on a garment manufacturing business on said premises. Therefore, the options if and when granted should specifically give to me the right to assign and transfer my rights there under.

Whereupon, Commissioner Lowey offered the following resolution and moved its adoption:

WHEREAS, J. H. Krekelberg has this day made application in writing desiring to have a three year option to purchase certain real estate owned by the County of Crow Wing known as the "Old court house, Sheriff's residence, jail and lock-up", and described as follows, to-wit: Lots 13 to 24, inclusive, Block 28, Town of Brainerd, according to the plat thereof in the Registry of Deeds of said county, and said property being located in said county and State of Minnesota, and offering for an option to purchase said Lots 13 to 18, inclusive, the sum of \$5.00, and said option to provide for the occupancy of said premises during the life of said option and the right to purchase the same for the sum of \$1,000.00 upon terms specified in said application which is on file in the Office of the County Auditor of

said county, and offering for the option to purchase said Lots 19 to 24, inclusive, the sum of \$5.00, and said option to provide for the occupancy of said premises during the life of said option and the right to purchase the same for the sum of \$3,000.00 upon terms specified in said application.

NOW, THEREFORE, BE IT RESOLVED, that Saturday, the 11th day of February, 1928, at 2 o'clock, P. M., at the office of the County Board, in the Court House of said county, in the City of Brainerd, be and the same hereby is fixed as the time and place for considering such offer or other offers and making such orders as may be deemed conducive to the interests of the inhabitants of said county.

Which resolution being seconded by Commissioner A. G. Anderson was duly adopted, all members voting "Aye."

On motion, the Board as a committee of the whole is to inspect the Mississippi river bridge on S. R. No. 3 which is now undergoing repairs on February 11th, 1928 at 4 o'clock P. M.

On motion, \$1,000.00 was set aside from the R. & B. fund towards the cost of repairing and widening the Mississippi river bridge on S. R. No. 3. Work to be done under the supervision of the County Engineer and payment of labor by time checks authorized.

—NOW 116 STORES IN THE NORTHWEST—

Carr to the girl, "but there is no particular reason why I should. You see, all my kindred are simply provided for, and—I'm not married."

"You may be some day," said the timid little life insurance agent.

After considerable maneuvering Terry contrived to meet Mr. Carr at a house party a month later. It was Terry on a holiday. Terry who had for the time being forgotten all about insurance, but a very pretty and well-dressed Terry nevertheless. It had taken considerable ingenuity to find a friend who also knew Bertram Carr who was in a mood to give a house party.

Bertram knew that he had seen her before but he could identify her neither with the insistent young woman who had tried to see him so often nor the timid girl who had sold him life insurance a little later. Even when he asked Terry to marry him and she had accepted, she had to tell him the story of her campaign that had aroused first his pity—then his love.

Resemble Red Indians

In Tibet and elsewhere in eastern Asia Doctor Hrdlicka found types which, he says, are so true to that of the American Indian that if they were transplanted into America no one could possibly take them for anything but Indians. These Tibetans and others, he points out, resemble the original inhabitants of America in behavior, in dress and even in the intonations of their language.

Carr to the girl, "but there is no particular reason why I should. You see, all my kindred are simply provided for, and I'm not married."

"You may be some day," said the timid little life insurance agent. After considerable maneuvering Terry contrived to meet Mr. Carr at a house party a month later. It was Terry on a holiday. Terry who had for the time being forgotten all about insurance, but a very pretty and well-dressed Terry nevertheless. It had taken considerable ingenuity to find a friend who also knew Brertram Carr who was in a mood to give a house party.

Brertram knew that he had seen her before but he could identify her neither with the insistent young woman who had tried to see him so often nor the timid girl who had sold him life insurance a little later. Even when he asked Terry to marry him and she had accepted, she had to tell him the story of her campaign that had aroused first his pity—then his love.

Resemble Red Indians

In Tibet and elsewhere in eastern Asia Doctor Hrdlicka found types which, he says, are so true to that of the American Indian that if they were transplanted into America no one could possibly take them for anything but Indians. These Tibetans and others, he points out, resemble the original inhabitants of America in behavior, in dress and even in the intonations of their language.
